

Student Situations

Please think about your time in Newham College and all the people you have interacted with.

Have you faced any situations where there has been a difficulty or misunderstanding

- Because you were not understood

OR

- Because your culture or background was different from someone else's?

This might be in class, at reception, in the canteen or anywhere else.

Here is an EXAMPLE to help you to start thinking:

“In the UK, it is the custom to queue when we are waiting for something so that the first person to arrive is the first person to be served. In many cultures, this is not the custom. Sometimes, in the canteen, this can cause misunderstandings and arguments”.

Please discuss your experiences with each other and present 3 or 4 situations to the group.
